

## Inspirational Leadership with Creativity & Engagement

### *Senior Management*

This course is designed to equip Senior Managers with a transformative set of tools that will elevate their inspirational leadership, creativity, and strategic thinking. These essential skills will enable them to lead teams with agility, engaging them to adapt and thrive in a dynamic, ever-changing business landscape with accountability. By cultivating these leadership capabilities, participants will not only drive their own growth but also inspire profound change within their organizations through visionary leadership and engagement.

Through interactive sessions, real-world case studies, and engaging activities, participants will explore diverse dimensions of strategic leadership. They will examine the core factors that propel organizations to craft and implement successful strategies, while mastering the art of managing change to foster sustainable growth and evolution.

In addition, participants will immerse themselves in a collaborative team activity within the program city, promoting strong partnerships with peers and offering opportunities to connect with influential business leaders from various industries. They will leave equipped with empowering insights and actionable lessons to foster creativity and empowerment within their teams, driving meaningful impact in their organizations.

#### **[Expected Outcome]**

- Participants will develop visionary leadership capabilities that spark intellectual inspiration, enabling them to confidently navigate and lead change in fast-paced, ever-evolving environments.
- Participants will learn to foster adaptability and overcome resistance by articulating a compelling vision that energizes teams and promotes collective engagement in transformation.
- Participants will elevate performance by encouraging creativity, nurturing innovation, and enhancing decision agility to respond to emerging challenges with confidence through practical application of leadership principles.
