

Leading Your People with Vision & Accountability

Leading Your People with Vision & Accountability

Senior Management

9-13 Oct 2023 | Seoul, Korea
30 Oct – 3 Nov 2023

This course is designed to provide upper-level managers to enhance leadership with vision and accountability. Participants will also improve their innovative mindset which encourages innovation and creativity at both individual, business unit and organizational levels. Participants will have diverse chance to work and collaborate with other participants. Through this, they will learn from others and further collaborate and trust their team members.

Through interactive sessions with real case examples, highly interactive activities and site visits, participants will explore different angles of visionary leadership, how to align their goal with the company's vision.

Participants will have a chance to work closely with other participants in a highly interactive team activity that will take place in the beautiful city of Seoul and build closer networks with business leaders from other companies to take away key lessons to apply back in their organization.

[Expected Outcome]

- Participants will use their visionary leadership to set roadmap to their organization with strong accountability
- Participants will collaborate with their team to achieve company's goal with innovative mindset.

Competencies:

- Visionary Leadership
- Collaboration & Trust
- Accountability
- Innovative Mindset

“I learned how people are connected and aligned across industries and communities. I have personally learned a lot and have a toolbox full of exciting ideas and suggestions to improve our ability to work together to achieve one goal.”

- Mr. Omar Al Ameri, AMMROC Vice President,
UAE
